

MasterVM UG (haftungsbeschränkt)

Wilhelmstraße 74, 38100 Braunschweig

LICENSING TERMS

Information on the use of software and operating systems at MasterVM.

Microsoft Windows

When using Windows servers, you are responsible for correct licensing (BYOL), unless otherwise specified.

- Activation with your own valid license key.
- Trial versions are limited in time.
- Provision of pure infrastructure.

Open Source & Linux

Most Linux distributions are provided under open source licenses (GPL).

- No additional license fees for kernels.
- Compliance with community guidelines.
- Free use of OS resources.

General Licensing Rules

By using the services of MasterVM UG, you agree to the following conditions:

Customer Responsibility

The customer is solely responsible for ensuring that all installed third-party software is legally licensed. MasterVM does not perform automatic audits.

End User License Agreements (EULA)

By installation, you accept the respective EULAs. Violations are considered a breach of our GTC.

Prohibited Modifications

Attempts to bypass license verification systems or use cracks will lead to immediate termination.
